PERMIT #

MANUFACTURED HOME PERMIT APPLICATION

IMPORTANT NOTICE ABOUT MOBILE/MANUFACTURED HOMES

On January 14, 1994, the Department of Housing and Urban Development made changes in the Federal Manufactured Homes Construction and Safety Standards and established new Wind Standards to improve the resistance of manufactured homes to high wind forces in areas subject to hurricanes. The effective date of these Standards is July 13, 1994.

The rule states:

Homes manufactured prior to July 13, 1994 CANNOT be sold or offered for sale in the hurricane zone nor can any manufactured home be placed in the hurricane zone UNLESS it is constructed and labeled for the old Wind Zone II (hurricane zone) requirements.

Wind Zone III are areas that are subject to 150 mph winds and these areas include Carteret County. Due to this rule, the Town of Newport will require certification on all new installations that the manufactured home is installed to meet Wind Zone III requirements. Manufactured homes not labeled or labeled for Wind Zone I or II will not be permitted to be installed within the jurisdiction of the Town of Newport.
